## **DETAILED ACTION**

# Specification

Claim 1 is objected to because of the following informalities:

The claim in this application does not commence on a separate sheet or electronic page in accordance with 37 CFR 1.52(b)(3).

In accordance with the MPEP § 608.01, the claim or claims must commence on a separate physical sheet or electronic page and should appear after the detailed description of the invention. Any sheet including a claim or portion of a claim may not contain any other parts of the application or other material. While there is no set statutory form for claims, the present Office practice is to insist that each claim must be the object of a sentence starting with "I (or we) claim," "The invention claimed is" (or the equivalent). Each claim begins with a capital letter and ends with a period. Periods may not be used elsewhere in the claims except for abbreviations. See Fressola v. Manbeck, 36 USPQ2d 1211 (D.D.C. 1995). Where a claim sets forth a plurality of elements or steps, each element or step of the claim should be separated by a line indentation, 37 CFR 1.75(i).

Appropriate correction is required in response to this action.

#### Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Application/Control Number: 10/628,344

Art Unit: 1615

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim is rejected for being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted element is the actual formulation. The claim recites "our Juvenile Weight Reduction Formula", however, the claim fails to recite the ingredient(s) for the formula. Until further clarification is submitted, for examining purpose, the claim is interpreted as a formulation that contains fiber as a base ingredient.

# Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Moreau et al. US 5,843,499, or Kovacs US 5,487,894, or Borschel et al. US 5,021,245, or Vanderveer et al. US 4,777,045.

Moreau discloses a corn fiber dietary supplement for cholesterol-lowering treatment (abstract).

Kovacs discloses a dietary supplement comprising oat fiber useful for weight loss program (column 3, lines 50-52; and column 7, lines 26-34).

Art Unit: 1615

Borschel discloses an infant formula comprising fiber sources useful for the treatment of infantile colic (abstract; column 5, lines 1-50).

Vanderveer discloses a high bran snack for nutritional and therapeutic purpose (abstract).

Regarding the limitation "formula that helps implement a healthy lifestyle, controls carbohydrate cravings, reduces hunger significantly, lowers serum cholesterol and glucose, burns fat, builds muscle mass and results with healthy weight loss". It is the position of the examiner that the limitation is inherent because the cited references teach formulations comprising fiber as a main ingredient for therapeutic or nutritional purpose. Furthermore, the present claim is directed to a formulation (composition) that contains fiber, and therefore, determination of patentability is based on the product itself.

## Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susan T. Tran whose telephone number is (571) 272-0606. The examiner can normally be reached on M-F 6:00 am to 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Woodward can be reached on (571) 272-8373. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Application/Control Number: 10/628,344

Art Unit: 1615

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information

system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
